# Compute Your Net Worth

**Net Worth = \_\_\_\_\_**

Great Job! Now you know your Net Worth!

Let's better understand what this value tells you:

### ➔ **Net Worth is Positive**

You are doing great! This value suggests that you are doing a good job in managing your finances ! Proceed with the following lessons to make sure you have the right tools to maintain or even improve your personal as well as business finance!

### ➔ **Net Worth is Negative**

You may want to go over the table above and understand what are the liabilities that influence the most this negative outcome. However, remember that negative Net Worth does not necessarily mean that you are not financially responsible. It only means that at the moment you owe more than you own, but you have the power to change it! Follow the following lessons to take control of your finances and eventually shift your Net Worth from negative to positive!
